M'FARLAND WINS **OVER THOMPSON**

Kansas City, Nov. 8.—Packy Mc-Farland, the idol of the Chicago Stock Yards district, was given the decision over Cyclone Johnny Thompson of Sycamore, Ills., in a whirlwind fight of

en rounds here tonight. The battle was that of a scientific oxer who was able to hit and get away against a man whose main as-set is slugging, and who would not got near enought to his shifty oppon-

In but one round, the second, was l'hompson able to send home enough telling blows to make it appear that his strength would carry the fight home to him. But with Packy hangng on, ducking and making the most of his wonderful foot work, the "Cy clone" could not corner him. After that round there was little doubt as to the outcome although Thompson took a brace in the last 3 rounds and

did some good work. A mighty shout of approval went up at the end of the tenth round, when Referee Joe Coffey of Chicago raised Packy's right hand signifying that he had won. Then, a few of Thompson's friends clamored for a draw but the decision was poular

in the main. Wearled by the terrific pace of the battle, McFarland did not realize that he had won. Two minutes after the decision had been rendered he hurried across the ring to the press box and asked: "Did I win?"

When assured that he was the victor a broad smile overspread his face and happy as a school boy, he danced back to his corner saying gleefully "I've gotten rid of the last man who blocked my path for a scrap with

I have never an "outlaw" circuit, to the National association of Major League, and association of Major League, and bad an attack of kidney trouble since Doan's Kidney Pills cured me. When have the opportunity, I give

J. H. Ferrell, secretary of the Na-

which the new league is to be admitted. The agreement will be submitted to the National board and, if approved, by that body, will then go before the entire association tomorrow for final action.

Cal. Ewing, president of the Pa cific coast league and Dr. Hermann had a conference before the question went before the National board. It was decided that the new league shall share three cities with the Pacific coast organization. Non-conflicting schedules are to be fixed and San Francisco, Oakland and Sacramento will have two teams as a concession to get the Californians into the field. This agreement was approved by the board. Stockton, Fresno and probab-ly San Jose, will be the other cities to make up the six club circuit of the California state league.

The title to sixty-one players will be decided by the national board and the title to five players by the Na-

tional commission. These players are men who are either under contract to or on the reserve list of some national agree ment club, and went with the California state league, while it was an "outlaw" organization. It is expected that the majority of these cases will be decided without trouble, but the majority of these cases will be de-cided without trouble, but the National commission will have to be called on in several cases where major

league clubs are involved.
Four National League clubs—Chlcago, Brooklyn, New York and Pitts-burg have claims on players, now in the newly admitted league. cago has a claim upon outfielder Smith of Oakland. Brooklyn has a hold upon pitcher Stricklett of San Jose and third baseman Sheehan of Pittsburg has a reserve Oakland. claim on first baseman Nealon of Oak-land, and first baseman Pfyle of

Stockton is wanted by New York.

The National board will resume its session and the entire National asso-ciation will meet tomorrow.

It was decided that contract jump-ers must remain in the California state league for four years, while those who have broken their reserve contract must remain for two years When any of these players are sold or drafted during the four years, one-half the money will go to the California state league, and the other half to the National association. The minimum purchase price in these cases must equal the drafting price. The new league will be admitted in class "B."

nded. Utah says: "I believe the exposure I Round 9.—Thompson waded in with underwent at different times during my life caused my kidney complaint About ten years ago I felt the trouble especially severe when I overexerted myself. About five years ago the doc-tors told me I had diabetes, and I believed this to be true, as my kidneys were in a terrible condition. The kidney secretions were unnatural and filled with sediment, and the passages were entirely too frequent. I was obliged to get up from ten to twelve times during the night on account of this weakness, and my health steadily ran down. I lost forty pounds in weight and felt tired and listless. My back pained me a great deal and I had rheumatism in my limbs. A few months ago I heard about Doan's Kidney Pills and began their use. Before long I was in good health. I have induced several of my friends to take Doan's Kidney Pills, and I know one case where the contents of two boxes effected a complete cure." (From statement given March 7, 1907.)

AT HORSE SHOW

New York, Nov. 8.—Heavy skies and a steady drizzle outside detracted nothing from the brilliance of the firs night of the twenty-fifth nationa horse show at Madison Square Garden Judging began this morning at 10

o'clock, but society did not fill the boxes until evening. Costumes were not startling this year, and there was more interest in horses than in the gowns.

The only mishap occurred late to

day. Judge William H. Moore, of New York was just pinning the Blue ribbon for horses shown in harness to his bay gelding, Flourish, when the anireeled and diving his forefeet into the judges stand upset chairs broke a table and bowled over a go geous flunkey. Judge Moore regained control without leaving his seat and drove Flourish out.

Judge Moore was again winner of a Blue ribbon in the class for novice harness horses with his Lady Seaton. Gangelt, of C. W. Watson's Fairmont Farm, took second and Quicksand, another Moore entry, third.

The classes were so large that they had to be shown in squads and judging was much delayed. George Watson, with Indian Flowers, a chestnut mare, won a Blue ribbon in the class for novice saddle horses. Judge Moore was again to the front with winning four-in-hand. Phyllis Aamarillis, Chiquito and Thornsdale Second went to the Fairmont Farm quartet of which the famous Ringing Bells was one.

Among the Blue ribbon winners, in the judging of early classes were Ja-cob B. Perkins, of Cleveland and the Willisden farms of New Centerville Pa. The Willisden two-year-old hack ney aGtton Tinkner Bell, took first prize in the hackney class.

FEDERATION WILL SUPPORT GOMPERS

Toronto, Can., Nov. 8.—That the American Federation of Labor will stand by President Samuel Gompers Vice President John Mitchell and Sec retary Frank Morrison, in their fight o escape jail sentences imposed in the District of Columbia for contemp of court, was indicated today by the attitude of delegates in attendance a the annual convention. It is apparent that the committee on president's re port will recommend that the case b carried to the supreme court of the United States. At least this is the expressed opinion of many delegates Delegates vigorously applauded sal ient points in Mr. Gomper's report, summarizing the Buck Stove and Range injunction case and the con-

tempt proceedings that followed.
"Mr. Gompers, in his report, dis cussed a wide range of labor issues and those of Secretary Frank Morrison and treasurer, John B. Lennon, showed that organized labor has made substantia! gains in the last year and that the federation has a balance of

\$165,303 in the treasury.

The convention's attitude toward the factional strife among members of the International Brotherhood of Electrical Workers, was shown today when the credential committee reported in favor of the faction headed by F. J. McNulty and declined to seat James J. Reid, of the Erie, Pa., central labor union, president of the "insurgents" and other delegates from organizations from Ohio, Iowa, Alabama and Michigan, whose charters

have been revoked. Thomas L. Lewis, president of the United Mine Workers of America ob jected to the adoption of the com-5 to 2 won; Kokomo, 5 to 1 second; mittee report as a whole, and at his Mystifler, 5 to 2 third. President Comperruled that only organizations in good standing were entitled to representa tion in the convention and it did not take long to vote after seating repre-sentatives whose organizations char-

ters had been revoked.

James P. Egan, of Toledo, repre senting the Ohio Federation of La-bor, one of the rejected delegates tried to address the convention when President Gomper's gavel came down with a bang as he declared, "Mr. Egan has no seat in this convention."

It is predicted that the dissatisfied electrical workers eventually will air their grievances on the convention floor. They contend that their charters were revoked before they had an opportunity to appeal to the convention

President Gompers said these ar peals would form a part of the report of the executive council tomorrow and that appeals would be heeded by com-mittees. The greater part of tomorrow's session probably will be voted to the report of the executive council and various committee appointments.

Dr. Archary testified Adolphe Stein heil's death was due to strangulation and that Mme. Japy's resulted from asphyxiation. Because of the manner in which the bodies were bound, the doctor suggested one person alone could not have committed the mur-

Mrs. Housewife—"I seem to do nothing but mend and darn all the time. Half the clothes are full of holes after a few washings.

Anty Drudge-"It's the boiling of your clothes in the wash that causes you all this work, Dearie. Boiling weakens them and makes them soft just as it does meat or vegetables. Use Fels-Naptha soap in cold or lukewarm water and the clothes will wear much

Did you ever wear homespun? Probably not, but your parents did. Old-time clothes were coarse and tough, able to stand the boiling and rubbing and pounding of the old-fashioned way of washing.

The delicate fabrics of to-day won't stand it. Perhaps your clothes are boiled and rubbed hard, and that is why they get frayed edges, tear easily, and wear out before their time.

Fels-Naptha soap is the modern way of washing. It cleanses clothes thoroughly in cold or lukewarm water—no boiling, no hard-rubbing, little time.
